

BSL Vocabulary Test – Task 4

BSL VT Task 4 – Meaning Recall

- *This task should be administered separately from Tasks 1-3. Its main purpose is to document a student's vocabulary growth & increase in strength of vocabulary knowledge over time. Responses are scored based on their type and not according to whether they are correct or incorrect. Test administrators are advised to focus on the actual responses instead of the score. You are encouraged to print out student's responses after each completed administration and compare/document progress over time.*
- Watch the instructions for Task 4.
- Click 'Play' to watch video of signed target item. Enter the English gloss (e.g., CARROT) for each signed response in the text box **and** select score for each response:
 - CR = categorical response (e.g., TOMATO, VEGETABLE) (scored as '1')
 - AR = non-categorical response (e.g. EAT, HEALTHY, ORANGE etc.) ('0.5')
 - WR = wrong response (e.g. rocket) ('0')
 - DK = don't know. ('0')
- In addition, indicate whether each response was in signed, fingerspelled, spoken or written form.
- Once you have completed practice item 2, click on 'Continue' to start the test.
